

# Simplify Your Life With Our Website Content

We have designed a website page sitemap, complete with content that is specific to cat grooming. This item is a virtual product that comes with the list of main page titles with corresponding drop-down page menus. Sample content or instructions for providing personalized content is provided for each page, which allows the website owner or designer to quickly add, change, and customize content to meet their specific business needs. Most content necessary to sell cat grooming services and explain what is offered at a cat grooming salon is included. Very little content needs to be added.

This product, with content, allows cat groomers (and dog groomers!) to have pages quickly set up on their own website that has been designed with their own business name, logo, and branding by a professional web designer.

We highly recommend having your website designed by Thomas Moffett at: [art@thomasmoffett.com](mailto:art@thomasmoffett.com), 864-373-5436.

Thomas Moffett offers an affordable, low monthly fee to all of our members, for the set up, design, and hosting of a website. Thomas Moffett can also insert this website page sitemap with content, once it is purchased.

All you have to provide is a receipt of purchase that is obtained upon completion of your order. Thomas Moffett will then insert the pages and content into your website. You will then be able to make any changes or additions that are necessary.

We cannot send this product out to non-professional web designers. This product cannot be sent directly to the purchaser. It can only be sent to professional web designers, once the purchase is complete.

We offer a 100% satisfaction guarantee on this product. The efficient and organized layout of pages, along with all content, is authored by Danelle German CFMG, CFCG, and based on the website she used for many years to build a successful cat grooming business. The content has been enhanced by knowledge gained through her years of working with students and new cat groomers who have set up businesses of their own.
